

# Know Your Demons

The Tiny

Listen devil  
I will let you go  
I have carried you for years  
But we end so sore  
I won't feed you anymore  
This is as far as I will take you  
I should've turned you down from the start  
My lungs are burning  
But you're worn out too  
I know your every turn  
By heart  
Like a favorite record of

Know your demons  
They know you  
Wherever you go  
They go too  
Know your demons  
They know you  
Wherever they go  
You're bound to

How dare you talk to a stranger  
When you know they'll put you down  
If they can  
How dare you show me your anger  
When your voice is oh so weak  
In my head

Chorus

Your poisonous whispers  
Are boring me  
I've got other words  
To comfort my mind  
No matter how you twist  
Or how you fight  
I'll pull you out  
You parasite
