

Don't Try This At Home

The Tony Danza Tapdance Extravaganza

Ice in the veins I'm feeling the rush It's insane all the things I feel I cannot explain I will not tolerate I will not conform To this to you for you for this never I hate

Now you know I hope you know This is all about you All of you

Now grab the next silly trend Your only bringing yourselves Closer to the end, WOO

As long as everyone else Is interested it's fine Don't be that one person Caught not liking it Because it's not good

They only needed more time It should be considered a crime Dude s in girls jeans Is beyond across the line

Your all a bunch of targets The next big group to be the carcasses Like a dead dear Close the casket We are finished here
