

This Cut Was The Deepest

The Tony Danza Tapdance Extravaganza

All the ways of the world Were taught to me by one girl In city
lights and summer heat We disappeared under the sheets

I'm letting go As long as I can see your face I'll get lost with
you in this place So do what you do best and walk away Hand in
hand lead me astray

Lost in your touch (2x)

Whatever you teach me to do That's all I'll know as the truth And
this is for the world to see Even if it comes back on me Back
on me (2x)

As long as i can see your face I'll get lost with you in this place
Lost in your touch (4x)

Here we go again As long as I can see your face I'll get lost with
you in this place So do what you do best and walk away Hand
in hand lead me astray

Lost in your touch (4x)
