

## This Cut Was The Deepest

The Tony Danza Tapdance Extravaganza

All the ways of the world Were taught to me by one girl In city  
lights and summer heat We disappeared under the sheets

I'm letting go As long as I can see your face I'll get lost with  
you in this place So do what you do best and walk away Hand in  
hand lead me astray

Lost in your touch (2x)

Whatever you teach me to do That's all I'll know as the truth And  
this is for the world to see Even if it comes back on me Back  
on me (2x)

As long as i can see your face I'll get lost with you in this place  
Lost in your touch (4x)

Here we go again As long as I can see your face I'll get lost with  
you in this place So do what you do best and walk away Hand  
in hand lead me astray

Lost in your touch (4x)
