

About This Map

The Tragically Hip

About this map, here we are, here
See, this is us, the exit is here, and
We've come too far, to just feel like this, yeah
We've come too far, to be feeling like this

Certain, certain
You want to, want to
Certain, certain
You want to, want to

About this map, it's a bit out of date, yeah
Territories shifted, and things get renamed
There's coups, revolutions, and boundaries blur
Volcanoes and earthquakes turn words into birds

It's certain, certain
You want to, want to
Certain, certain
You want to, want to, want to

But, oh, about this map
It goes beyond, beyond
And, oh about this map
About this map

About this map, here we are, here
See, this is me, and there you are, there, and
There's got to be more than just to despair
There's got to be more than just to despair

I'm certain, certain
I want to, want to
You're certain, certain
You want to, want to, want to

And, oh, about this map
It goes beyond, beyond
Forget about this map
About this map

And, oh, about this map
We don't live in our heads
Forget about this map
About this map
About this map
About this map
About this map
