

All Canadian Surf Club

The Tragically Hip

Well, there's a rocking little spot next to the Regent Theatre
And if you want to make the scene you'll make it sooner or later

You're really hanging with the crowd, you know the ins and the
outs here

All Canadian Surf Club, denim jackets and long hair

Well, we're rocking to the beach, we'll watch the waves as they
roll there

I meant I really dig you, baby, make me wild with your blonde hair

Yeah, when your dancing next to me I want to roll and die there
I'll be designing my buggy while I'm thinking about next year

Walk across the sand

With another friend

My love depends

When summer ends

You really abuse and use the beach it's got the things that you
need there

I got my guitar, Cadillac, chick and twenty four cold beers

Yeah, when your dancing next to me I want to roll and die there

All Canadian Surf Club, denim jackets and long hair

Walk across the sand

With another friend

My heart depends

When summer ends

Denim jackets and long hair

I want to roll and die there

Make me wild with your blonde hair

Yeah
