Get The Party On

The Treatment

I got only one lane
And I do what I feel
I'm gonna take every dream in my head, and make it real

I'm like a wrecking ball,
Watch the buildings fall,
If you don't wanna come with me, I'll send you the bill

I'm burning, learning,
It keeps my world turning,
Woah-oh, when things are going wrong,
get the party on
Woah-oh, when things are going wrong,
get the party on

Well do you know what I like?
Oh, doing nothing with ease,
I'm gonna bring this city to meltdown,
till it bleeds

You will remember my name,
And if it caused you pain,
We'll be taking the wheels down before we leave,

I'm loving, giving
This life's worth living
Woah-oh, when things are going wrong,
get the party on
Woah-oh when things are going wrong,
get the party on

Don't let the good times disappear,
Put out the call 'cos I need you here
Don't follow me let me make it clear,
I'm gonna take you away from here
Away from here

I'm loving, giving
This life's worth living

You got only one life
And I do what I feel
I'm gonna take every dream in my head
And make it real
Make it real

Woah-oh, when things are going wrong,
get the party on
Woah-oh, when things are going wrong,
get the party on

Get the party on
Get the party on
Get the party on
Get the party on
