

I Bleed Rock & Roll

The Treatment

We made our bones back in Hollywood
You said we can't when I knew we could
Don't ever tell me what you want me to do
What, you don't like me?
(Oh well, fuck you!)

I bleed rock and roll
Rock is all I need
I bleed rock and roll
It's my destiny

You put your brains and your money aside
It's only me keeping you alive
You're on a team that could never win
Why can't you see that?
(Where have you been?)

I bleed rock and roll
Rock is all I need
I bleed rock and roll
It's my destiny

All I bleed is rock and roll
It runs right through my very soul
Don't you pour your hate on me
I am not your enemy!
Oh yeah... Oh yeah...

Now listen...
I will have to put you straight
Point out all of your mistakes
Your moves are a mystery
They don't make much sense to me
If you want this band to break
You must give but you just take
Leave us standing high and dry
Watch the world go by!

We made our way back to Hollywood
You said we can't when I knew we could
Don't ever tell me I should listen to you
What you don't like me?
(Oh well, what's new?)

I bleed rock and roll
Rock is all I need
I bleed rock and roll
It's my destiny

I BLEED ROCK AND ROLL!
I BLEED ROCK AND ROLL!

I BLEED ROCK AND ROLL!
