

Shake the Mountain

The Treatment

Now, don't think you've got the better of me
Well, it's all been a lie from the start, baby
I see you coming from a mile away
Better get ready 'cause it's time to play

Come on, shake the mountain
Come on, shake the mountain
Come on, come on, shake the mountain

Now, can you see the back of my heels?
So, tell me little honey, do you like how it feels?
Gonna shoot you down from a mile away
Better get ready 'cause it's time to play

Come on, shake the mountain
Come on, shake the mountain
Come on, come on, shake the mountain

Now, don't think you've got the better of me
Well, it's all been a lie, that's the truth, baby
I see you coming from a mile away
Better get ready 'cause it's time to play

Come on, shake the mountain
Come on, shake the mountain
Come on, come on, shake the mountain
