

## Stone cold love

### The Treatment

The world owes you a living  
And I'm so tired of giving  
When you are saying nothing  
To turn this into something

I want more, more, more, more  
Give me more, more, more, more

You lead me to destruction  
I'm feeling your eruption  
This is getting to me  
Your words they cut right through me

I want more, more, more, more  
Give me more, more, more, more

I've seen you lately  
It looks like you hate me  
It's hard to believe how I still want you

Stone cold love  
Stone cold love  
Stone cold love  
Stone cold love

If I could live inside your mind  
And with a little time  
We'll leave this all behind

Stone cold love  
Stone cold love

If I could live inside your mind  
With a little time  
We'll leave this all behind

Don't you try to stop me  
You pick me up and drop me  
When I was so good to you  
I guess I never knew you

I see you leaving  
All your deceiving  
It's hard to believe  
How I still need you

Stone cold love  
Stone cold love  
Stone cold love  
Stone cold love

Stone cold love  
Stone cold love  
Stone cold love  
Stone cold love
