## The Treatment

Come on!

You walk a high wire in your head  
The things that I say have left my brain dead  
You walk in hand with insanity  
I'm not waiting here for you to wreck me

Oh yeah  
Alright  
Let the good times roll  
Let it go straight to your head  
Let the good times roll  
Let's go

I want it all  
I'm gonna take you to the Doctor  
I'm gonna go  
I'm gonna make you scream and watch ya

Oh yeah  
Alright

Who said fate had a master plan?  
You took my bait when you held my hand  
I knew from the start you were good for me  
Now anything goes when anything's free

Oh yeah  
Alright

Let the good times roll  
Let it go straight to your head  
Let the good times roll  
Let's go

I want it all  
I'm gonna take you to the Doctor  
I'm gonna go  
I'm gonna make you scream and watch ya

Well can you hear the angels calling?  
Don't you say a word  
Can you hear the angels calling?  
Waiting to be heard

Look at my face smiling victory  
You better move fast if you wanna catch me  
Please don't cry, did I make you sad?  
'Cause you were the best thing I ever had

Oh yeah  
Alright

Let the good times roll  
Let it go straight to your head  
Let the good times roll  
Let's go

Come on!

I want it all

Yeah, I want it all

I'm gonna take you to the Doctor

I'm gonna go

Yeah, I'm gonna go

I'm gonna make you scream and watch ya
