

Ride On

The Tremeloes

Get you man just standing there
You don't look scared, well, I don't care
I wouldn't be in your shoes, son
I'll tell you now you'd better run

Get your cycle and ride on, ride away - yeah
Don't you know you'd better not stay
Get your cycle and ride on, ride on - you'd better be gone

You don't look like you're gonna move
Stubborn like a stupid mule
If you think you'd rather die
Don't expect nobody to cry

Get your cycle and ride on, ride away - yeah
Don't you know you'd better not stay
Get your cycle and ride on, ride on - you'd better be gone

You can smile in disbelief
Keep on laughing up your sleeve
Now you know what you can do
Stay and see what happens to you

Get your cycle and ride on, ride away
Don't you know you'd better not stay
Get your cycle and ride on, ride on - you'd better be gone
