

Love Is The Real Thing

The Trews

Love is it the real thing?
Give me the real thing love
Love is it the real thing?
Give me the real thing love

I've been trying to leave you alone
But I get so lonesome on my own
I keep checking my cell phone
For missed calls from your mother's home

I guess you could say that I'm desperate

Love is it the real thing?
Give me the real thing love
Love give me the real thing
The real thing
Love

I'm not crazy I'm alone
I wait for friends I used to know
You've got to be pretty cold
To lead me on and let me go
In love

Everything feels like it's out of control
I guess you could say that I'm out of it

Love is it the real thing
The real thing
The real thing
Love

If you don't love me let me know
Don't lead me down a dead end road
You're raking me over the coals
I guess that I'm a fool in

Love is it the real thing?
The real thing love
Love give me the real thing
The real thing love
Love give me the real thing
The real thing
The real thing love
Love is it the real thing
The real thing
The real thing
The real thing
Love
I guess you could say that I'm desperate enough
