

So She's Leaving

The Trews

better stop pretending
that this is never ending
it seems the dream is over
if not worthy a man did
livin at a stand still
pushin rocks uphill
a mountain full of feathers
with no natural bull skill

oh my girl please don't give in
don't listen to your stupid friends
i hear them goin off again
So She's Leavin

Plantin dead flowers
in cold october
cemetery blackbird
flyin on over
where's this gonna take me
a mountain full of misery
careless abandon
all alone and empty

i feel love to take me home
but she don't wanna live alone
i'm always out on the road
so she's leavin

Oh my girl please don't give in
don't listen to your stupid friends
i hear them goin off again
so she's leavin

Can't find me from on the road
could i whisper you a song
dry your eyes the whole night long
take your heart before its gone
well yeah
oh no no no
yeah yeah

I feel love to take me home
but she don't wanna live alone
I'm always out on the road
So she's leavin

Oh my girl please don't give in
don't listen to your stupid friends
i hear them goin off again
so she's leavin
so she's leavin
so she's leavin
yeah
no
