

If ever you need me, baby
There's a number that you can phone
It's double six, five, four, three, two, one
Yeah I'll be there and I bet on my own

'Cause I know what you want
['Cause I know what you want]
'Cause I know what you want
['Cause I know what you want]

It's no use pretending, baby
I'm feeling the same way, too
So come on over to my place
There's so much that we can do

'Cause I know what you want
['Cause I know what you want]
'Cause I know what you want
['Cause I know what you want]

Someday we will overdo it
Someday we will go too far
I'll get drained of all my money
And I will even have to sell my car

'Cause I know what you want
['Cause I know what you want]
'Cause I know what you want
['Cause I know what you want]

I know that I must be crazy
But there's a number that you can phone
It's double six, five, four, three, two, one
Yeah I'll be there and I bet on my own

'Cause I know what you want
['Cause I know what you want]
'Cause I know what you want
['Cause I know what you want]
