

# Dust Bowl

The Troggs

Some folks are living in a dust bowl  
I've seen them on TV, ah  
Some folks are living in a dust bowl  
Don't love like you and me, ah

Some folks live in little boxes  
Underneath the railway station  
Some folks live in little boxes  
What a way to run a nation

When after all is said and done  
We've only got one earth, one sun  
There's nowhere in our universe  
Where we can go if things get worse  
We'd better make a start today  
The problems here won't go away  
We'd better take just one step back  
Cos our beautiful bubble is about to crack

Some folks are breaking down the ozone  
Breaking down the ozone layer  
Some folks are messin' with the ozone  
Hope they're around when it's time to pay, ah

Some folks are cuttin' down the forest  
Cuttin' down the forest station  
Some folks are cuttin' down the forest  
Do we need the devastation?

Cos after all is said and done  
We've only got one earth, one sun  
There's nowhere in our universe  
Where we can go if things get worse  
We'd better make a start today  
The problems here won't go away  
We'd better take just one step back  
Cos our beautiful bubble is about to crack

Some folks are living in a dust bowl  
Some folks live in little boxes  
Some folks are breaking down the ozone  
Some folks are cutting down the forest
