

## Fishhouse

## The Tubes

You might say  
Is prophecy for the world today  
All that's black come out of the bay  
Oil spill kill bill has a price to pay

Dead bloated whale  
With flies in his eyes  
Seen the future much to his demise  
Pooned and doomed left to rot and die  
Big stench floatin' that you can't deny

Mothers brothers swim in fathoms of tears  
Crying this message for thousands of years

Fishhouse-Mediterranean blues  
Fishhouse-Subterranean fuse  
Fishhouse-Test sight and missile abuse  
Fishhouse-Neptune's got so much to lose

Otters eating lead in an oyster bed  
Slag heap come turn the whole thing red  
Aleutian seagull dried up and dead  
Plutonium cocktail toxic head

Mothers brothers swim in fathoms of tears  
Crying this message for thousands of years

Fishhouse-Mediterranean blues  
Fishhouse-Subterranean fuse  
Fishhouse-Test sight and missile abuse  
Fishhouse-Neptune's got so much to lose

He's drowning  
He going down-going down

My trophy friend is hanging on the wall  
Urine the water now let's have a ball-swimmin'
