Well it's a shame when you got nobody And it's a drag when you got no friends But it's a worse when you get no mercy And you're startin' all over again

And back in my own world Nobody bugs me But down on the shop floor They show me no mercy

I've been down to the railway station
I've been over to the taxi stand
I've been standing in the lobby of the Hyatt Hotel
But I've never seen a helpin' hand

I'm lookin' for someone
Not out to get me
I'm keepin' my guard up
Expectin' no mercy

No mercy No pity There's no mercy for me No sympathy

They say it's just like a gentle rainfall But it ain't never rained on me And back in my own world Nobody bugs me But down on the shop floor They show me no mercy

No mercy No pity There's no mercy for me No sympathy
