

## Think About Me

The Tubes

Passing in the street, two total strangers meet  
Keep short and sweet, no obligations  
You belong to me, temporarily  
You're a memory, I got to face it

Won't you remember to think about me  
Will you think about me

Got no time to rest, can't even catch my breath  
Now that the moment's past, there us just tomorrow  
No time to look back, to the love affair we had  
We knew it wouldn't last, I got to go now

Won't you remember to think about me  
Will you think about me

I know you'll never call, or write me little notes  
Or take your shirts to clean, you'll forget about me  
Think about me

We will hit or miss, get the feelings when we kiss  
Lovers leap like this, it's now or never  
Maybe we'll meet again  
Or maybe we'll just pretend that show it's always been  
Love's not forever

Won't you remember to think about me  
Will you think about me
