

## Either Way

The Twang

Yeah I feel better today, I think that shit was just a phase,  
My whole outlook's changed, I've even stopped feelin' strange.  
I can understand why you was mad now,  
Why should you be the one who has to loose out, just 'cause I'm  
on one?  
I said "I'm always gonna have shit going on!"

I feel so much better today, chase the bad things away.

I was glad I turned the corner man, 'cause I was sick of feelin'  
' rough  
I was getting paranoid about the silliest of stuff.  
I was at me wit?s end pulling my hair out, I'd just about had e  
nough.  
And all I needed was just a hug and that little bit of love.

I feel so much better today, chase the bad things away.

And I really do feel so much better, I really do feel so much b  
etter.  
And I've gotta find my phone to tell yer,  
Maybe even write you a love letter.  
Either way I've gotta tell ya, either way I've gotta tell ya,

I feel so much better today, I've chased the bad things away.

And yeah I really do feel better and it almost don?t feel right  
,  
So I'm gonna store this thought away for a bit,  
And I'm not saying it ain't gonna be hard at times,  
'Cause it's always your favourite top you bin,  
But think man it could have been your skin.  
And I think we might just be OK, but what does it matter either  
way,  
'Cause she's the one that's always there.  
Yeah she's the one that always cares.  
Yeah she's the one that always there.  
'cause your the one that always cares.  
I love ya.  
I've gotta find my phone to tell 'er  
Ah, maybe even write you a love letter.  
Ah, either way I've gotta tell ya, either way I've gotta tell y  
a,  
Ah either way I've gotta tell ya, either way I've gotta tell ya  
,  
Either way either way either way (lots of either ways)
