

## Last Night In Town

The Twilight Singers

Whenever you're here you're alive  
The devil says you can do what you like  
Come what may, come what might  
You'll see me there

They've come to bury you, child  
And there's a man on the loose in your eyes  
But should you stay and should you fight  
You'll see me there

Dreaming, dreaming  
Dreaming true and true  
Screaming, O my lord  
When the scheme's undone  
One will survive

Get in line  
Take your broken number  
I'll wait for you  
Cause baby I've  
Come to take you under  
Your number  
I thought it up

It's easy, easy, easy through and through  
Screaming, O my lord  
And it's easy when there's  
Nowhere to hide, in me  
Love, take me now  
You'll see me  
In your disguise

I promise to be with you till the end  
Or somewhere near there  
I promise to be with you till the end  
At least until you're dead
