## **The Twilight Singers**

## Twilight

When darkness falls On Summer's end So in your absence I shall begin When Darkness falls the race is done And Love lives not When Hope is gone Goodbye, sufer

Everything's gonna be alright

The longest night of every year I spent beside you, baby Do you remember anything about me? I was the one when Hope was gone Who took too long to sing this song

Everything's gonna be alright

When darkness falls On Summer's end So in your absence I shall begin When Darkness falls The race is through

Everything's gonna be alright
