

## Facts Of Love

### The Twins

Since we met each other yesterday  
my life's changed in a most remarkable way  
I arrived there late but still you waited  
Since that time I've been infatuated.

I'll never have to worry again about falling in love  
She is the woman that I've been dreaming of.

The way you look, the way I feel  
These are the facts of love  
The beating heart I can't conceal  
These are the facts of love.

Since you left me last night at the station  
I've been in a state of fascination  
I only need to look into your eyes  
And hear you say there'll be no more goodbyes.

I'll never have to worry again about falling in love  
She is the woman that I've been dreaming of.

The way you look, the way I feel  
These are the facts of love  
The beating heart I can't conceal  
These are the facts of love.
