

Forever And Ever

The Twins

I saw your face, through a window
But you vanished without trace
And I searched, all the night
All around the place.

Then when you came, I knew I'd found you
And I'd never feel the same
Every day, we're apart
Is a crying shame.

Time is flying - And I've been missing you baby
Our love's not dying - It's getting stronger each day.

You and me, was meant to be
And we'll be loving
Forever and ever.

All we need is harmony
And we'll be loving
Forever and ever.

You're in the mould of something special
That can't be bought and sold
And I know, that what's mine
is a heart of gold.

And come what may, we're together
Forever and a day
Cos we've found, what we want
And it's here to stay.

Time is flying - And I've been missing you baby
Our love's not dying - It's getting stronger each day.

You and me, was meant to be
And we'll be loving
Forever and ever.

All we need is harmony
And we'll be loving
Forever and ever.
