

## I Fell For You

The Twins

You chased me with persistence  
You always knew you'd win  
Was only my insistence  
That forced you to give in

Night and day - you followed me  
You called me on the phone  
I never thought - I'd missed your voice  
Until you left me alone

And so I fell for you  
And don't you say you told me so  
Went through hell for you  
And don't you say you told me so

And now I'm showing penitence  
I'm living in the past  
I laughed at your self-confidence  
But now you're laughing last

Night and day - you followed me  
you called me on the phone  
I never thought - I'd missed your voice  
Until you left me alone

And so I fell for you  
And don't you say you told me so  
Went through hell for you  
And don't you say you told me so
