

## Talk To Me

### The Twins

I saw you on the corner  
from the corner of my eye  
And you were looking at me  
as I was passing by  
We didn't know each other  
and we didn't really care  
Only one thing mattered  
so we stopped and stood and stared.

I knew that you could see me  
and you knew that I saw you  
And yet we still pretended  
that it wasn't true  
Everything went hazy  
and the world was standing still  
How could I get the courage  
to go in for the kill.

Talk to me - I've been waiting much too long  
Talk to me - And time is running on  
Walk to me - It's not so far to go  
Talk to me - Just come and say hello.

Everybody's watching  
and everybody knows  
We've got to make a move now  
before the moment goes  
No time for hesitation  
it's something that can't wait  
We have to get together  
before it is too late.

Talk to me - I've been waiting much too long  
Talk to me - And time is running on  
Walk to me - It's not so far to go  
Talk to me - Just come and say hello.
