

Talk To Me

The Twins

I saw you on the corner
from the corner of my eye
And you were looking at me
as I was passing by
We didn't know each other
and we didn't really care
Only one thing mattered
so we stopped and stood and stared.

I knew that you could see me
and you knew that I saw you
And yet we still pretended
that it wasn't true
Everything went hazy
and the world was standing still
How could I get the courage
to go in for the kill.

Talk to me - I've been waiting much too long
Talk to me - And time is running on
Walk to me - It's not so far to go
Talk to me - Just come and say hello.

Everybody's watching
and everybody knows
We've got to make a move now
before the moment goes
No time for hesitation
it's something that can't wait
We have to get together
before it is too late.

Talk to me - I've been waiting much too long
Talk to me - And time is running on
Walk to me - It's not so far to go
Talk to me - Just come and say hello.
