

## The Desert Place

## The Twins

I'm sitting here in this desert place  
And there's no sign of life on face  
There's no way back to my home  
I have to stay here - here on my own.

They really left me here to stay  
And now my world is so far away

There's no place for, a man like you  
They told me  
And so you stay in this desert place

I'm sitting here in this desert place  
And there's no sign of life on face  
There's no way back to my home  
I have to stay here - here on my own.

They really left me here to stay  
And now my world is so far away

There's no place for, a man like you  
They told me  
And so you stay in this desert place.
