The Desert Place

I'm sitting here in this desert place And there's no sign of life on face There's no way back to my home I have to stay here - here on my own.

They really left me here to stay And now my world is so far away

There's no place for, a man like you They told me And so you stay in this desert place

I'm sitting here in this desert place And there's no sign of life on face There's no way back to my home I have to stay here - here on my own.

They really left me here to stay And now my world is so far away

There's no place for, a man like you They told me And so you stay in this desert place. The Twins
