

Time Will Tell

The Twins

Time was - when time stood still for our rendezvous
My heartbeat - hit danger-zone when I thought of you
What we had - felt like an eternity
And nothing could go wrong - or steal our ecstasy

When you're sleeping next to me
I'm waiting for the day
I lie awake and dream of you
A thousand miles away

So time will tell - and time's never wrong
So time will tell - but time takes so long

Our time is up - or that's the way that it seems to be
Your heartbeat - is beating now for your liberty
What we had - can never return again
No matter what we do - no matter who takes the blame

I lie awake and dream of you
A thousand miles away

So time will tell - and time's never wrong
So time will tell - but time takes so long
