

Head Right

The Underachievers

If your life's a rollercoaster ride that shit out never sober
Got the weight up on my shoulders
Play no games like no controllers
Got your bitch inside the rover
Blowing dope she like mimosas
Say your prayers to my poster
On her knees and fat
We call that the Colin Kaepernick
Hit the fade and count the pack
Laughing at the message that you sent like
"Baby call me back!"
Look at where we started at
Flatbush to the cul-de-sac
Puffing so much dank I be the first to catch a heart attack
Fuck what niggas told you, I don't fuck with locals
See me I be global
Can't hit me on my mobile that's reserved for hoes fool and paper calls to f
all through
Ricky Rozay boss moves, impossible to talk to
Say which nigga got a problem step to him no hesitation
Let that trippy shit confuse you
All my hitters for the shaking
Blowing dope inside a penthouse came a long way from the basement
Nigga gassed up off the dank and what you blowin' look deflated

Get your head right, nigga get your head right
'Said get your head right, nigga get your head right
'Said get your head right, nigga get your head right
'Said get your head right, nigga get your head right
'Said get your head right, nigga get your head right
'Said get your head right, nigga get your head right
'Said get your head right, nigga get your head right
'Said get your head right, nigga get your head right

Medicated hella faded don't take L's I just inhale it
Straight from hell I burn the pavement
Got your girl I might replace you
For the night the pussy vacant, super soaking wet
Power pole extend
No heroics just aerobics kick her out the gym
Chuck the top like knowledge on my fam
I'm riding through my lands
Passenger a goddess from the gram
You probably a fan
Sippin' on a pint of purple trance
It's like Down to pull my life out for these bands
You call it a trance
And challenge my niggas high-caliber
Couple of savages due to their habitat
Niggas be actors but not with their action
Stealing the flow but good thing I mastered that
AK the GOAT and you niggas is green
Chewing you up and I'm mashing my teeth
Ain't no more middleman handing to me
Got the passion on me and the man in my teams
Don't show me love cause they know I'm a threat
Know that I'm godly underneath the flesh

Money is my time and you niggas hold your breath
Put a vest on your body but I'm shooting heads
Don't show me love cause they know I'm a threat
Know that I'm godly underneath the flesh
Money is my time and you niggas hold your breath
Put a vest on your body but I'm shooting heads

Get your head right, nigga get your head right
'Said get your head right, nigga get your head right
'Said get your head right, nigga get your head right
'Said get your head right, nigga get your head right
'Said get your head right, nigga get your head right
'Said get your head right, nigga get your head right
'Said get your head right, nigga get your head right
'Said get your head right, nigga get your head right
