

Kiss The Sky

The Underachievers

(Pay attention)

Currently in Hell where the demons don't sleep
The people livin' poor they resort to the streets
But silence read the frequency a boost of esteem
Raise up your guns we at war with the beast
Niggas livin' wise then repeat cycles
The light illuminate the god from head to toe
Firespittin' killa, gonna feed my foes
Relax, get back, it's time to reach my zone
No cataracts, my vision too ice cold
The gang is in attack defenses low
Started from the back, now we close to gold
So a nigga chose to step the reefer smoke

Kiss the sky, niggas gettin' high, all my hittas fly
Kiss the sky, niggas gettin' high, all my hittas fly
Kiss the sky, niggas gettin' high, all my hittas fly
Kiss the sky, niggas gettin' high, all my hittas fly

Can't be elite, when we bang you retreat
I deliver all the scripture that your brain really need
Win inside the winners like the pain for the cheese
I don't even gotta pay when yo' boss know it's me
Seein' better days but yo' boy is still a beast
Got a fuckin' bad temper when I get up on a beat
Floatin' on nimbus, rest in peace to my niggas
Spittin' ether tellin' 'till I'm no longer inhaling
Gotta keep a strong spirit so deceased can they hear it
Keep the strong lyrics when I speak they get image
I proceed to the limits like a ribbon at the finish
Put my heart all in it 'till the fat broad singin', uh

Kiss the sky, niggas gettin' high, all my hittas fly
Kiss the sky, niggas gettin' high, all my hittas fly
Kiss the sky, niggas gettin' high, all my hittas fly
Kiss the sky, niggas gettin' high, all my hittas fly

I shit on track, techniques with nice flows
Bet they feel the shit all the way in Cairo
Lead the orchestra, I bow, the maestro
We the real deal, these niggas is toys like Tyco
Like a Navy seal these niggas be floatin' the hydro
I'm the king in the vicinity bow to my toes
See, you sick I got the remedy
Stick to my cold
Had you run like Bill Bellamy, now you're too old
Nigga feel lucky, my ducks in nice rows
Never fuckin' with a pessimist seed with my soul
I was born with livin' medicine reap what I sow
See the world inside the pressure your weight is like coal

Kiss the sky, niggas gettin' high, all my hittas fly
Kiss the sky, niggas gettin' high, all my hittas fly
Kiss the sky, niggas gettin' high, all my hittas fly
Kiss the sky, niggas gettin' high, all my hittas fly

Livin' in the Matrix hard to feel awakened
Feelin' liberation travel through the wave lengths
Had to find a way my route was pen and paper
My hand full of aces not the one to play with
Dancin' with Satan on some every day shit
With the Trump at the head I'm fearful for the nation
Pumped by a better case of infiltration
Eyes blood red but still I can't escape it
A wise man said want virtue you need patience
Keep few friends can't trust them new faces
Never break bread with niggas
A time wastin' and it's off with ya head if niggas is violatin'

Kiss the sky, niggas gettin' high, all my hittas fly
Kiss the sky, niggas gettin' high, all my hittas fly
Kiss the sky, niggas gettin' high, all my hittas fly
Kiss the sky, niggas gettin' high, all my hittas fly

Know gods was missin' we was gone for a minute
Had to get back in be more evolved in the business
Now I'm re-strapped built to put the bomb in the building
Niggas weak raps bout to get scorched like a kitchen
We smacked we could off in a minute
Nigga team strapped but we never harm little children
Weak sack nigga dealin' dro was a kick in
It's a hidden back call a nigga phone bet he missin'

Nigga fall in position
Try the lord that's repentin'
Now feel the wrath of a livin' god for yo' sinnin'
I remember back when a nigga song wasn't hittin'
Now we on the map went against the odds and we winnin'
(Lawd)
