

# Phoenix Feathers

## The Underachievers

You are now listening to a 2401 production

Cruel times that we up under  
Sometimes a nigga wonder if God do really love us  
We products of our rubbish  
Divide the world with colors, that kinda judgement disgusting  
Quickly but screamin' justice, will we ever earn our feathers?  
Journey endless still a blessing plus my essence luminescence  
Lessons settin' every setting, no one's lesser  
Just remember never judge before you enter  
Enter love that's in the center, plenty more to spread them members  
Spread them chords, you spread the witness in the court  
Uh, not playing tennis but from Venus you could witness how they theivin' our spirits  
Give us sentence like english and proceed to cage our children  
Plus the cops be on our anus while we always pass the statements  
Why we always get pulled over, gun "oh lawd" they blow our brain  
We by the fuck they say we dangerous, in my heart I know it's hatred (lord)  
Hard to have some patience when the world seem like some crazies  
My heart just keeps on racin', but I'm good with all this payment

But now or later gotta use the power to exile the hatred  
Nigga step up off the corner, use your mind and start creatin'  
Had to look into the mirror, be the chick that we been chasin'  
Rearrange, I stay the dank and no more waitin', we gon' take it  
But now or later gotta use the power to exile the hatred  
Nigga step up off the corner, use your mind and start creatin'  
Had to look into the mirror, be the chick that we been chasin'  
Rearrange, I stay the dank and no more waitin', we gon' take it

No more waitin' we gonna take it nigga

Murder she wrote it was permanent, Devil don't write in pencil  
The world contest you but you can rise up like Phoenix feathers  
We be protected, the co-heat to fully defend us  
To pretentious, that's why delusional niggas miss they blessings  
So eclectic, the pen perfect it, makin' niggas respect it  
Put the pressure making a diamond, rise out from Hell to Heaven  
My collective making the negative energy deflector  
King to peasant, you cannot ride inside of my Nebuchadnezzar  
My back was built up like gorilla fingers  
I send it left, like a chick to end a night on Tinder  
No contenders can step to me, I'm brutal like I'm Joe Frazier  
Want no favors, niggas be handin' out poison I ain't gon' take it  
We ain't no family nigga that means we not relatin'  
Two displays from the society, limitation in this world  
Filled up with all the stupid replica imitation  
We gon' be the young nation to raise up and influence changes uh  
I never copy these niggas be tracin'  
World is basic arithmetic and they cannot retain it  
My soul the genie in the bottle, no you cannot contain it  
See my spirit floatin' through the universe just like a spaceship  
The astral travel will help you stand like a bannister  
They hears in cannisters, but stylus edit they characters  
Like a creative player, terminator, Schwarzenegger  
I'll be back to blast my haters, drop em' like a hot potato'
