

Saturday

The Underdog Project

When the sun goes down at night. Everything's the same. When I lie back I close my eyes I think about you fair. Just the smell of Angel-Parfum makes some mem like me go insciene. Forget about all the money and cars forget all about the thing.

You so fair - so fair
I can't dinnar - can't dinnar
Won on won just me and you it's all tonight - all tonight
You so cue - so cue
In rondevous - rondevous
Just me and you with first ??? that what will do

Girl it's on cause the day is saturday
Saturday is for you and me a party
Yes it's on cause the day is saturday
Saturday it's my favorite day I hope that you will stay with me tonight
