

## Chain of Love

The Undertones

Every night when the light has gone  
I can see you carry on  
Knights in armour won't rescue you  
In the shadows - the naked truth

Chain of love - don't put me away  
Chain of love - don't put me away

Any time you took my name  
i had to change it back again  
Caught in crossfire never worried me  
I'm caught in chains deliberately

Chain of love - don't put me away ...

Take me away from this notion  
I'm nervous enough  
Take me away from this girl  
Who's a genius for love

She's a genius

Lonely nights like the night before  
See I've made you ask for more  
Tropical fever when the heat is on  
A pocket Venus the lonely one ?

Chain of love - don't put me away ...
