

It makes me wonder  
How to read your understanding  
It makes me wonder  
What's in your mind  
It makes me wonder  
How the flash of love keeps blinding  
It makes me wonder  
Time after time

Meet distant love  
Meet distant love and see what's in store  
Watch it evolve  
A conscious way to what's now no more

But what is love ?  
But what is love ?  
A cut above  
Its what gets you noticed

It makes me wonder ...

I've seen the switch  
I've seen the hungry looks you've let slip  
You've fooled us all  
A stupid victim under your grip

But what is love ..

It makes me wonder ...
