

I Told You So

The Undertones

I wake up in the morning
I've been looking for a bed
Somebody told me
You've been sleeping in too late

I told you so - I told you so - I told you so - I told you so
Now its too late to stop I told you so

I've been taking this trouble
Just to set my mind at ease
A man comes in crawling
Won't you please please please

I told you so ...

I never did expect
To have to carry so much weight
But the photographs are ready
You're twenty minutes late

I told you so ...
I wake up in the morning
I've been looking for a bed
Somebody told me
You've been sleeping in too late

I told you so - I told you so - I told you so - I told you so
Now its too late to stop I told you so

I've been taking this trouble
Just to set my mind at ease
A man comes in crawling
Won't you please please please

I told you so ...

I never did expect
To have to carry so much weight
But the photographs are ready
You're twenty minutes late

I told you so ...
