

# I Told You So

The Undertones

I wake up in the morning  
I've been looking for a bed  
Somebody told me  
You've been sleeping in too late

I told you so - I told you so - I told you so - I told you so  
Now its too late to stop I told you so

I've been taking this trouble  
Just to set my mind at ease  
A man comes in crawling  
Won't you please please please

I told you so ...

I never did expect  
To have to carry so much weight  
But the photographs are ready  
You're twenty minutes late

I told you so ...  
I wake up in the morning  
I've been looking for a bed  
Somebody told me  
You've been sleeping in too late

I told you so - I told you so - I told you so - I told you so  
Now its too late to stop I told you so

I've been taking this trouble  
Just to set my mind at ease  
A man comes in crawling  
Won't you please please please

I told you so ...

I never did expect  
To have to carry so much weight  
But the photographs are ready  
You're twenty minutes late

I told you so ...
