

Wrong Way

The Undertones

Stop treating me this way girl
Cos you know I meant no harm
Is this the way you wanted to be now
My head's going round and round

I can't understand the way things are
This is the wrong way
You will have to change someday

Stop treating me this way girl
Cos you know I meant no harm
Is this the way you wanted to be now
My head's going round and round

I can't understand the way things are
This is the wrong way
You will have to change someday

I can't understand the way things are
This is the wrong way
You will have to change someday
