

# I Don't Wanna Die

The Unicorns

I spotted the glow over the mountain, tonight  
My turn to turn in just when the weather's getting nice  
I predict: i die in a plane crash  
I see it now, i die in a car on tour  
And there's no one to stop this  
Nobody to loosen death's firm grip on me

Doo doo doo doo i die  
It's true  
Doo doo doo doo i die  
And so do you

My prophecy is almost complete  
My finger's on the pulse  
(but where's the beat?)

We don't wanna die in the ocean  
(drifting out to sea)  
We don't want to die in our sleep  
(ing bags)

DEATH buckle up boys, we're going for a little ride

Death! I just want one more breath!  
Can you grant me one more please?
