

Jellybones

The Unicorns

For so long i trailed you
Now here i am, but i can't stand
With these Jellybones

Checked myself into emergency, urgently.
Drove up in my bone-camarrow, thinking only about you.
The doctor walked her crew of surgeons to the table where I lay
I came to, and my knee-caps were off.
They were soft, I had Jellybones

I woke him up and broke the news
After everything was sewn
I said: "Son, you've got a full-blown case
Of what is known as Jellybones."

Jelly
Jellybones.
