

Get Off My Cloud

The Union

Drain me and degrade me
But keep me within our reach
You love me as you hate me
Never practicing what you preach

Get off my cloud
My life's just fine without you
Get off my cloud
Your world is on the ground
You blow me away
How can you be so stupid
There's no room up here anyway

Judge me then you hang me
Never hearing a word I said
Oblique and confusing
Are the thoughts you put in my head

Get off my cloud
My life's just fine without you
Get off my cloud
Your world is on the ground
You blow me away
How can you be so stupid
There's no room up here anyway

And now you're falling
Back where you belong
Yes you're falling, falling
Back where you belong
