

## Blue and Yellow

The Used

and it's all in how you mix the two  
and it starts just where the light exists  
it's a feeling that you cannot miss  
and it burns a hole through everyone that feels it  
well you're never gonna find it  
if you're looking for it  
won't come your way  
well you'll never find it  
if you're looking for it  
should've done something but I've done it enough  
by the way your hands were shaking  
rather waste some time with you  
and you never would have thought in the end  
how amazing it feels just to live again  
it's a feeling that you cannot miss  
it burns a hole through everyone that feels it  
well you're never gonna find it  
if you're looking for it  
won't come your way  
well you'll never find it  
if you're looking for it  
should've done something but I've done it enough  
by the way your hands were shaking  
rather waste some time with you  
should've said something but I've said it enough  
by the way my words were faded  
rather waste some time with you  
waste some time with you  
waste some time with you  
waste some time with you  
waste some time with you  
waste some time with you  
should've done something but I've done it enough  
by the way your hands were shaking  
rather waste my time with you  
should've said something but I've said it enough  
by the way my words were faded  
rather waste my time with you  
should've done something but I've done it enough  
by the way my hands were shaking  
rather waste some time with you  
waste some time with you  
waste some time with you  
waste some time with you  
waste some time with you  
waste some time with you  
waste some time with you  
waste some time with you  
waste some time with you  
waste some time with you  
waste some time with you  
[whispering:]  
should've done something but I've done it enough  
by the way your hands were shaking  
rather waste some time with you
