

Force Without Violence

The Used

Our voices still silence
The plans that we've made
The dead cannot hear
All the prayers that we beg
Is there a force without violence
Is there a catch with no hook
Believing the lies while they fix all the books
Things will never change
If we remain the same
Our hearts call us by name
These walls won't keep us safe
When they hold us back like barricades
It's time now to replace these walls
The walls around our heart
There's no price we wont pay
And we steal it back just to give it away
It's time now to replace these walls
The walls around our hearts
When fear breaks the silence
The choice has been made
We're listening now to sounds from the grave
This brave opposition
Comes naturally
Being exactly who we're supposed to be
Things will never change
If we remain the same
Our hearts call us by name
These walls won't keep us safe
When they hold us back like barricades
It's time now to replace these walls
The walls around our heart
There's no price we wont pay
And we steal it back just to give it away
It's time now to replace these walls
The walls around our hearts
We'll take what we're given
We'll pay for our freedom
We'll take what we're given
We'll pray for our freedom
We'll take what we're given
We'll pray for our freedom
We'll take what we're given
We'll pay for our freedom
These walls won't keep us safe
When they hold us back like barricades
It's time now to replace these walls
The walls around our heart
There's no price we wont pay
And we steal it back just to give it away
It's time now to replace these walls
The walls around our hearts
