

Kiss It Goodbye

The Used

Your love shows many colours
Roses will show their thorns
You showed me signs of silence
Showed me my way back home
I break my back, bent over
I dance on broken glass
I hold my breath half to death
You can't forget the past

Unless you think it's not over
Let's kiss it goodbye
Is it really worth it?
Is it all just a lie?
Not like I'm giving up now, I am willing to try
Unless you think it's not over
Let's kiss it goodbye
My love shows it's horns
Could you lead us home?
Break your,
Break your back on broken glass
You can't forget the past
Unless you think it's not over
Let's kiss it goodbye
Is it really worth it?
Is it all just a lie?
Not like I'm giving up now, I am willing to try
Unless you think it's not over
Let's kiss it goodbye

My love shows many colours
Devils will show their horns
I lead you into darkness
Hoped it would lead us home
You break your back, bent over
You dance on broken glass
I know you'll always love me
You can't forget the past
Unless you think it's not over
Let's kiss it goodbye
Is it really worth it?
Is it all just a lie?
Not like I'm giving up now, I am willing to try
Unless you think it's not over
Let's kiss it good
Let's kiss it goodbye
