

The Best of Me

The Used

I could forget your name
I could forget your face forever
I could forget about the smile you always faked
The one though, I though
I would never
I could forget your lies
I could forget the hide for always
I could forget how desperately you drive
Flattery will get you nowhere
I could forget of you tried to get the best of me
You'll never forget
That you never got me
(You never got me)
Well nice to know that you care
(To leave me soaking wet)
I'm so surprised you were dead
You make me want to forget
I could forget your pride
I could forget your wondering eyes
I could forget about the way you made me feel
And talked to me so condescending
I could forget of you tried to get the best of me
You'll never forget
That you never got me
(You never got me)
Well nice to know that you care
(To leave me soaking wet)
I'm so surprised you were dead
You make me want to forget
Well nice to know that you care
(To leave me soaking wet)
I'm so surprised you were dead
You make me want to forget
Never got me'€|!
(Guitar solo)
Well nice to know that you care
(To leave me soaking wet)
I'm so surprised you were dead
You make me want to forget
Well nice to know that you care
(To leave me soaking wet)
I'm so surprised you were dead
You make me want to forget
You make me, you make me
You make me want to forget
Make me, Make me
AHHHH Fuck
