

This Fire

The Used

True, we acted like we should
And did all that we could
When you pushed we never pulled,
We answer back as anything,
We can give you anything,
Will you take everything
Cause we do not need a thing
This fire, this fire burning
It burns inside of me
This fire, this fire burning
It burns inside of me
I'm not faded away, I'm not faded away
Our love, our hope never faded away
This fire, this fire it burns inside of me
True, we were never understood
Or acted like we should
She cannot bet you would
We don't owe you anything
So we wont give you anything
Try to take everything
But we won't give you anything
This fire, this fire burning
It burns inside of me
This fire, this fire burning
It burns inside of me
I'm not faded away, I'm not faded away
Our love, our hope never faded away
This fire, this fire it burns inside of me
Build a fire for yourself
Build a fire for yourself now
Build a fire for yourself
X2
We won't give you anything
This fire, this fire burning
It burns inside of me
This fire, this fire burning
It burns inside of me
I'm not faded away, I'm not faded away
Our love, our hope never faded away
This fire, this fire it burns inside of me
