

Everybody's Gonna Let You Down

The Vaccines

Someday, in someway, everybody's gonna let you down
Everybody's gonna let you down
I knew that you would
Cause everybody's gonna let you down
Everybody's gonna let you down
So, don't we no need, I will let you down

I gotta warn ya
Cause what if I become like all this
Self fornication, but with no hesitation
I just burn all night, it's a lonely life
A lonely ride
Let me down easy

How low? So low
Everybody's gonna let you down, yes
Everybody's gonna let you down, oh, oh
So low
You're always gonna let me down cause,
Everybody's gonna let you down

Got no faith in the human will
Have you still?

I gotta warn ya
Cause what if I become like all this
Sell reputation, and with no hesitation
I just hurt all night
It's a lonely ride
Are you lonely right?
Let me down easy

Everybody's gonna let you down, yes
Everybody's gonna let you down
So don't lean on me
I will let you down

I gotta warn ya
Cause what if I become like all this
Self fornication, but with no hesitation
I just burn all night, it's a lonely life
A lonely ride
Let me down easy
