

# Make You Mine

The Vaccines

I can see now you've stepped into the light  
You've got those bright kind of eyes that I like  
I kinda lie and I can't find a way through  
I've obscured my own view

Well I'd do anything to make you mine  
Well I'd do anything to make you mine  
Well I'd do anything to make it,  
make it seem like I am alright

I took my first steps walking on the wing  
I've got a good mind and a fist full of string  
I'm walking on the surface all up to my knees  
I can't get no relief

Well I'd do anything to make you mine  
Well I'd do anything to make you mine  
Well I'd do anything to make it,  
make it seem like I am alright

All my pretending makes me ache  
One day I might persuade to take my foot off the break

Well I'd do anything to make you mine  
Well I'd do anything to make you mine  
Well I'd do anything to make it,  
make it seem like I am alright
