

# Maybe I Could Hold You

The Vaccines

But he was man enough  
And if I thought you cared for just being comfortable  
If you had asked around  
And if you'd found me there  
Would it bother you?  
I told you what you wanna hear

I don't know who I thought you were  
But no one ever made me wonder  
And it's getting to the point where I'm gonna have to ask you

Maybe I could hold you  
Maybe I could hold you  
Maybe I could hold you  
(I don't want no other, I don't want a lot to lose)  
Maybe I could hold you  
(But I could be your reason, if you want someone to use)

When you came to me  
It's not as if I kept you  
I wasn't looking to  
What is history?  
And what is in the future?  
Does it matter now?  
I'm not convinced it was you know

I don't know who I thought you were  
But no one ever made me wonder  
And it's getting to the point where I'm gonna have to ask you

Maybe I could hold you  
(I don't want no trouble, no I don't want a lot to lose)  
Maybe I could hold you  
(But I could be whatever helps you, if you want someone to use)

Maybe I could hold you  
(I'd be undercover, it doesn't really matter)  
Maybe I could hold you  
(Maybe you aren't in danger, when you want someone to use)  
Maybe I could hold you  
(I don't want no trouble, no I don't want a lot to lose)  
Maybe I could hold you  
(But I could be whatever helps you, if you want someone to use)
